**Head of School****Warren Junior school****Assessment and Data**

I have been the Furze/Warren Hard Federation Special Education Needs Co-ordinator since 2008. My drive in this time has been to establish and develop whole school policies that give every pupil the best chance of reaching their full potential. Leading the Inclusion Support Group, whose agenda is to meet the preconditions of learning including housing, behaviour, attendance, welfare and learning has given me a broad insight to the wider areas of inclusion, understanding that what happens outside of the class as well as inside, makes a significant difference to every child's development. I have supported several schools to develop this approach and led a *Mayor's Gold Club Seminar* on the subject.

**Special Education Needs**

As Assessment Co-ordinator I have ensured that there are high expectations for all pupils and as SENCo have been able to give the teachers the resources they need to support the pupils in reaching those targets as well as developing several tracking and targeting systems that are now used by several schools.

**Music**

I was a full time music teacher from 2004-2008 and remain a working musician. Music has given me so much joy in my life and I am keen to promote music wherever possible in the curriculum.
