**EYFS Leader**

**St Peter's R.C Primary School**

**Early Years**

I have been teaching for 16 years and have taught across three key stages with the majority of my work being in EYFS and KS1. I have a passion for Early Years pedagogy and provision. I am particularly committed to the provision of a rich and creative environment that stimulates learning and equips children with the skills to succeed.

I have experienced leadership at different levels and I have led teams both within my setting and in other schools. This has given me a secure understanding of how to embed a whole school approach when raising standards within the EYFS.

I have supported schools in developing their Early Years provision both inside and outside the LEA. In a supportive role I have been involved in learning walks, observations, and professional discussions, action planning, interpreting data to set targets and ensuring all staff are empowered to sustain improvement. I have also supported the LEA with moderating profiles across the borough.

I am delighted to be able to share my own practice as an SLE; and am passionate about getting children off to the very best start in their education, by supporting colleagues in creating an Early Years setting where outstanding outcomes for children are as important as outstanding outcomes for OFSTED.
