

Helena Brooks

Inclusion Manager

St Peter's R.C Primary School

For the past ten years I have worked in a variety of educational settings including residential behaviour provisions, special needs schools and mainstream schools. I have gained a wide range of knowledge and experience in both challenging but rewarding roles.

Social, Emotional and Mental Health

Special Educational Needs

In my current Senior Leadership role as Inclusion Manager I oversee the Special Educational Needs and behaviour for the whole school, and have set up and developed an Additional Resource Provision for primary school children who have moderate to severe learning difficulties. I have developed and embedded policies and systems to ensure that children with Special Educational Needs are having their needs met within their current setting.

Additional Resource Provision Leader

Having spent the past 4 years working in mainstream schools, which have an additional resource provision, I have had the opportunity to support teachers by coaching and mentoring them, setting up brand new provisions and improving existing provisions.

I have a keen interest in child development and have completed 3 years training in Transactional analysis and I am currently training to become a Thrive Practitioner.
