

Michelle Warnes

Head of Year 6

Warren Junior School

I have been teaching in the borough of Barking and Dagenham for the past eighteen years. I was appointed mathematics co-ordinator at Warren Junior School in 2006 and I have been Head of Year Six since 2010.

Maths Coordinator

During this time, I have devised, introduced and implemented curriculum changes and assessment strategies for mathematics in Key Stage Two.

I have experience of mentoring NQTs and teachers within my school and I have had opportunities to support staff in schools within the borough.

I believe that mathematics should be fun, accessible and enjoyable, not only for the pupils but the staff too. I feel that it is important that teachers can make the curriculum their 'own'.
