

Dalton School

During the summer holiday a great deal of building work took place at school. The flooring in the hall and corridor was replaced after the flood in June. We were also fortunate to refurbish the undercover area in the Key Stage one classroom. This has given us additional internal space in our Early Years area. We are delighted with the results.

Class one with their new building.

The additional classroom has enabled us to provide a safe, warm and appealing learning environment for our youngest children. We are now in a position to offer additional places in the pre-school as well as offering 'rising three' children a place in the pre-school.

Our Reception children have settled into school extremely well this year. Some of the children had attended our pre-school so were already used to routines in the classroom. Our new children in Reception and pre-school are also established into their new environment.

Dalton Discoverers After-School Club is also thriving. The children love Wednesday evenings when they have the opportunity to create tasty snacks.

I always like going to After-School Club because there's always fun activities.

Maya

We have some more places available for our pre-school.

Please contact the school office for further details on 01257 462082.
