

The Village Project is about promoting good practice within The Early Years Foundation Stage. Mayfield Primary School Reception class will be working with Mayfield Pre-School to plan shared activities and opportunities to support all children, providing a solid foundation to their first years of learning.

There will be shared planning across the settings, shared training, moderation and celebratory events. The children will benefit hugely from the cooperative working which will help promote effective transition into Reception and ensure children achieve their full potential throughout their time within our Early Years Curriculum.

If you have any further questions regarding our Village Project please get in touch.
