

Dalton St Michael's C.E. Primary School - Medium Term Plan 2016-2017

Class: 1

Year Groups: N/R/1/2

Autumn Term 1 2016

8 weeks

Connected Curriculum The Great Outdoors

Subject Areas

Art and Design Technology

The children will make observational landscape drawings and will continue to experiment with mark-making, using a range of pencil grades, charcoal, graphite sticks and pens on both small and large scale works, as individuals and in groups. They will make drawings and experiment making shades and tones in greys using chalk and charcoal.

Geography

We will identify seasonal and daily weather patterns in the United Kingdom and use basic geographical vocabulary to refer key physical and human features. The children will learn to use a range of maps and globes (including picture maps) at different scales and use vocabulary such as bigger/smaller, near/far. They will use large scale maps and aerial photos of the school and local area and learn to recognise simple features on maps e.g. buildings, roads and fields. Children will draw a simple map of school and label it and begin to use and construct basic symbols in a map key. They will also use simple compass directions (NSEW).

Music

The children will continue to listen and appraise many different styles of music and give their opinions of personal likes and dislikes. Each lesson will include fun games including warm ups and games to help understand the concept of pulse and high and low pitch. They will learn the song 'Round and Round' by Joanna Mangona and find ways to improve the song by adding instruments. They will perform and share their work and evaluate each performance.

English

Children will learn about stories with everyday settings. We will focus on books such as Egyptian Adventure and we will also watch short films such as the 'Marshmallows' video on Vimeo. We will look at these different settings and then describe the characters and create our own version as well.

On the run up to Christmas we will read Christmas stories and watch Christmas adverts. We will analyse these and then create retell these in our own words and create our own versions of these. In addition we will appraise each advert and talk about what we like and dislike about them.

Maths

The topics we will be covering this half term will be multiplication, statistics, fractions, money and time. We will look at how multiplication is repeated addition and how this can be set out either as 2×4 or 4×2 . We will also look at how we can set these out as arrays. When we learn about statistics we will create tally charts and our own bar charts and pictograms. During the fractions topic we will look at counting in $\frac{1}{2}$'s and $\frac{1}{4}$'s and we will look at how to find a fraction of shapes, objects and numbers. During the money topic we will look at the different coins and solve money problems including change. Finally, during the time topic we will learn about o'clock, half past, quarter to and quarter past times. During each topic we will complete problems that help the children apply their knowledge.

Religious Education

We will learn about the story of the First Christmas and practise for our nativity in Church.

The topic is 'Jesus a Gift for the World'. We will learn about why we send and receive gifts at Christmas and how not all gifts needs to be physical. Children will talk about what gifts they can give to their parents and they will learn why Jesus being born was such an important gift for Christians around the world.

Science

Science this half term is 'Everyday Materials and Their Uses'. We will recap the main materials that objects can be made out of and we will then look at their properties and why objects may be made out of a certain material. We will also look at recycling and why it is important.

Physical Education

Invasion Games

Children will continue to take part in small sided team games. They will work on their team working skills.

Children will be developing their game tactics and attack and defence skills. They will also learn about the importance of warming up and cooling down.
