Parenting is consistently coming top of the list when we ask what is important for Public Health.

So, we are asking as many parents as possible to follow this link <http://bit.ly/ERParenting> and tell us their views. Alternatively, parents can download the app "Sensemaker" on iOS or android phones (activity code is "parenting") instead.

This is a piece of research that will help us see this from the parents' perspective, regardless of where you live in the East Riding, how old your child is or whether or not you have used any services.

We would be really grateful for your help with this, so that we can make what we do in future as relevant as it can be to as many parents as possible.

If you'd like any further information on this then please do contact:
