

Key Instant Recall Facts

Year 1 – Spring 1

Focus:

By the end of this half term children should know the following facts. **The aim is for them to recall these facts instantly.**

Doubles and halves of numbers to 10.

$0 + 0 = 0$	$\frac{1}{2}$ of 0 = 0
$1 + 1 = 2$	$\frac{1}{2}$ of 2 = 1
$2 + 2 = 4$	$\frac{1}{2}$ of 4 = 2
$3 + 3 = 6$	$\frac{1}{2}$ of 6 = 3
$4 + 4 = 8$	$\frac{1}{2}$ of 8 = 4
$5 + 5 = 10$	$\frac{1}{2}$ of 10 = 5
$6 + 6 = 12$	$\frac{1}{2}$ of 12 = 6
$7 + 7 = 14$	$\frac{1}{2}$ of 14 = 7
$8 + 8 = 16$	$\frac{1}{2}$ of 16 = 8
$9 + 9 = 18$	$\frac{1}{2}$ of 18 = 9
$10 + 10 = 20$	$\frac{1}{2}$ of 20 = 10

Key Vocabulary

What is **double** 9?

What is **half** of 6?

What is **one more** than 36?

What is **one less** than 24?

Which is **more**, 15 or 28?

One more and one less than a number

One less 14	Number 15	One more 16
-----------------------	---------------------	-----------------------

Year one children should now be able to fairly confidently tell you a number that is one more or one less than any number to 100.

If they have practised counting backwards and forwards with numbers to 100, this should be the natural next step. If your child finds it tricky, start with numbers to 10, then to 20 and move upwards.

Find some games below to help them move on with counting.

Top Tips

The secret to success is little and often. Can you practise while walking to school, whilst shopping or during a car journey? You don't need to practise them all at once.

Here are some games that you could try at home.

Doubling numbers to 10 – ICT games. <http://www.ictgames.com/robindoubles.html>

Doubling numbers beyond 10 – ICT games. <http://www.ictgames.com/rhoodbeyond10.html>

Wabbit Words - Understanding the terms of more and less. <http://www.ictgames.com/rabbit2.html>

Park the Pods – Children find the spoken number and then have to count on a given amount to find the answer. http://www.bbc.co.uk/schools/starship/maths/games/park_the_pods/big_sound/full.shtml
