

## **Sundon Park Junior School**

### **Accessibility plan 2016-2019**

This policy should be read in conjunction with the following policies:

- Single Equality Policy
- Health and Safety Policy
- Medical Needs Policy
- SEND Policy.

This Accessibility Plan has been drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period.

#### **Disability**

A disabled person is defined as someone who has a physical or mental impairment which has an effect on his or her ability to carry out normal day-to-day activities. The effect must be substantial, long term and adverse. The Equality Act definition of disability covers physical disabilities, sensory and other mental impairments and learning disabilities.

A child of compulsory school age has a learning difficulty or disability if he or she:

- has a significantly greater difficulty in learning than the majority of others of the same age, or
- has a disability which prevents or hinders him or her from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools

We are committed to providing an accessible environment which values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.

Sundon Park Junior School plans, over time, to ensure the accessibility of provision for all pupils, staff and visitors to the school.

An Accessibility Plan will be drawn up to cover a three year period. The plan will be updated annually. The Accessibility Plan will contain relevant actions to:

- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.
- Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables and

information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame.

The Action Plan for physical accessibility relates to the Access Audit of the School, which is undertaken regularly. It may not be feasible to undertake some of the works during the life of this Accessibility Plan and therefore some items will roll forward into subsequent plans. The audit will need to be revisited prior to the end of each three-year plan period in order to inform the development of the new Plan for the following period.

The Accessibility Plan will be referenced in the School Prospectus. Any complaints arising as a result of accessibility issues should be raised in line with the school Complaints Policy.

Information about our Accessibility Plan will be published in the Governors' Annual Report to Parents.

The Plan will be monitored by governors through the School Business Managers Report to Full Governing Body Meetings three times per year.

We acknowledge that there is a need for on-going awareness raising and training for staff and governors in the matter of disability discrimination and the need to inform attitudes on this matter.

The school will work in partnership with the LEA in developing and implementing this plan.

## Improving Curriculum Access

- Sundon Park Junior School is a multi-level building with internal steps to raised areas of the school. Part of the building is on the first floor, accessed via a flight of steps.
- All areas of the ground floor building are currently accessible via ramps, although most of these are external.
- The main entrance to the building is ramped and the automatic entrance doors are wide enough for wheelchair access.
- All classrooms are carpeted, thus reducing noise from general movement in classrooms.
- The school has a nurture room for small group work and any therapeutic work.
- The school's Family Room is at the front of the building and has ramped access and a disabled toilet.
