

Mrs. Heather Birch
Foundation Governor

Hello, my name is Heather Birch and I have recently been appointed as a Foundation Governor. I have been married for 15 years and my two children attend the School - Emily in Year 6 and Noah in Year 3. I work as a Senior Biomedical Scientist at The Royal Blackburn Hospital testing blood for samples of enzymes, hormones and drugs which enables Doctors to treat their

patients. It is a 'hidden' role which people often don't realise is going on behind the scenes.

I love spending time with my family, growing our own fruit and vegetables and walking. We attend St. Leonard's Church in Padiham where my children are in the choir and Matthew and I help with the youngest children at Sunday School. I have really enjoyed getting involved with the School and have already started hearing children read, which I look forward to each week, I feel privileged that my children are part of such a wonderful school with dedicated, hard-working staff and volunteers. I hope to help the children and School in any way I can and look forward to the challenges ahead.
