

Foxmoor School

Curriculum Policy

(See also Special Educational Needs)

1. Introduction

Our school's curriculum is all the planned activities that we organise in order to promote learning, and personal growth and development. It includes not only the formal requirements of the National Curriculum, but also the various extra-curricular activities that the school organises in order to enrich the children's experience. It also includes the 'hidden curriculum' – what the children learn from the way they are treated and expected to behave. We want children to grow into positive, responsible people who can work and co-operate with others, while at the same time developing their knowledge and skills, in order to achieve their true potential.

We endorse the aspirations concerning curriculum that are set out in the DfE document *Excellence and Enjoyment 2003*, and we seek the highest standards of attainment for all our children. We also value the breadth of the curriculum that we provide. We aim to foster creativity in our children, and to help them become independent learners. Above all we believe in making learning fun.

2. Values

2.1 Our school curriculum is underpinned by the values that we hold dear at our school. The curriculum is the means by which the school achieves its objective of educating children in the knowledge, skills and understanding that they need in order to lead fulfilling lives.

2.2 Our school is in full agreement with the values statement included in the introduction to the National Curriculum Handbook for Primary Teachers in England. These are the main values of our school, upon which we have based our curriculum.

- ❖ **We value children's uniqueness, we listen to the views of individual children, and we promote respect for diverse cultures.**
- ❖ **We value the spiritual and moral development of each person, as well as their intellectual and physical growth.**
- ❖ **We value the importance of each person in our community, and we organise our curriculum to promote inclusion, cooperation and understanding among all members of our community.**
- ❖ **We value the rights enjoyed by each person in our society. We respect each child in our school for who they are, and we treat them with fairness and honesty. We want to enable each person to be successful, and we provide equal opportunities for all our pupils.**
- ❖ **We will strive to meet the needs of all our children, and to ensure that we meet all statutory requirements regarding inclusion.**
- ❖ **We value our environment, and we want to teach our pupils, through our curriculum, how we should take care of the world, not only for ourselves, but also for future generations.**

3. Aims

3.1 The aims of our school curriculum are:

- ❖ to enable all children to learn, and develop their skills, to the best of their ability;
- ❖ to promote a positive attitude towards learning, so that children enjoy coming to school, and acquire a solid basis for lifelong learning;
- ❖ to teach children the basic skills of literacy, numeracy and computing and information, communication technology (ICT);
- ❖ to enable children to be creative and to develop their own thinking;
- ❖ to teach children about the developing world, including how their environment and society have changed over time;
- ❖ to help children understand Britain's cultural heritage;
- ❖ to appreciate and value the contribution made by all ethnic groups in our multi-cultural society;
- ❖ to enable children to be positive citizens;
- ❖ to fulfil all the requirements of the National Curriculum and the Locally Agreed Syllabus for Religious Education;
- ❖ to teach children to have an awareness of their own spiritual development, and to distinguish right from wrong;
- ❖ to help children understand the importance of truth and fairness, so that they grow up committed to equal opportunities for all;
- ❖ to enable children to have respect for themselves and high self-esteem, and to live and work cooperatively with others.

4. Organisation and planning

- 4.1 We adopt a cross-curricular topic approach to curriculum planning. We plan the curriculum carefully, so that there is coherent and full coverage of all aspects of the National Curriculum linking the subjects where natural and appropriate whilst ensuring that the discrete learning objectives for each curriculum subject are identified.
- 4.2 We plan our curriculum in three phases. We agree a long-term plan for the whole school integrating all 3 Key Stages. This indicates what topics are to be taught in each year on a rolling programme of 4 years for foundation subjects and 2 years for science. This produces 4 curriculum maps for each class: year A, B, C and D ensuring that all statutory elements of the National Curriculum are taught to all pupils whichever route they take through school. We review this plan on an annual basis.
- 4.3 Through our medium-term plans we give clear guidance on the learning objectives and teaching strategies for each topic.
- 4.4 Our short-term plans are those that our teachers write on a weekly or daily basis. We use these to set out the learning objectives for each session, identify what resources and activities we are going to use in the lesson and the role of the Teaching Assistant.
- 4.5 In the Foundation Stage we plan the curriculum around the Early Learning Goals, using the revised National Curriculum for the Foundation Stage.
- 4.6 In Key Stage 1 the topic is adapted to suit the needs of these pupils and is only given a light touch when appropriate. There is also a further range of inter-disciplinary topics for these pupils.
- 4.5 In Key Stage 2, we do not always teach the foundation subjects discretely, this means, for example, although a child may concentrate in one term on a history topic, then switch to a greater emphasis on geography in the next term, other subjects will be linked where they can support and contribute to the pupils' greater learning.

5. The curriculum and inclusion

- 5.1 The curriculum in our school is designed to be accessed by all children who attend the school. If we think it necessary to modify some children's access to the curriculum, in order to meet their needs, then we do this only after their parents have been consulted.
- 5.2 If children have special needs or disabilities, our school does all it can to meet the individual needs, and we comply with the requirements set out in the SEN Code of Practice. If a child displays signs of having special needs, then his/her teacher makes an assessment of this need. In most instances the teacher is able to provide the resources and educational opportunities that meet the child's needs, within normal class organisation. If a child's need is more severe, we consider the child for an Education, Health, Care Plan (EHCP), and we involve the appropriate external agencies in making an assessment. We always provide additional resources and support for children with special needs.
- 5.3 The school provides an Individual Educational Plan for each of the children who are on the special needs register. This sets out the nature of the special need, and outlines how the school will aim to address it. The plan also sets out targets for improvement, so that we can review and monitor the progress of each child at regular intervals.
- 5.4 Some children in our school have disabilities. We are as committed to meeting the needs of these children, as we are to meeting the needs of all groups of children within our school. The school complies fully with the requirements of the amended Disability Discrimination Act that came into effect in September 2002. All reasonable steps are taken to ensure that these children are not placed at a substantial disadvantage compared to children without disabilities. Teaching and learning is appropriately modified for children with disabilities. For example, they may be given additional time to complete certain activities, or the teaching materials may be adapted.
- 5.5 Our schemes of work address the diversity of our society, and reflect the National Curriculum programmes of study.

6 The Foundation Stage (EYFS – Reception)

- 6.1 The curriculum that we teach in the Reception class meets the requirements set out in the revised National Curriculum at Foundation Stage, and the guidance produced in 2012. Our curriculum planning focuses on the Early Learning Goals, as set out in these documents, and on developing children's skills and experiences.
- 6.2 Our school fully supports the principle that young children learn through play, and by engaging in well-planned and structured activities. Teaching in the Reception class builds on the experiences of the children in their pre-school learning. We do all we can to build positive partnerships with the various pre-school providers in the area.
- 6.3 Each term in the Reception class the teacher will assess the skills development of each child, and record this in the Foundation Stage Profile. This assessment forms an important part of the future curriculum planning for each child.
- 6.4 We are well aware that all children need the support of both the parents and the teachers to make good progress in school. We strive to build positive links with the parents of each child, by keeping them informed about how the children are being taught, and how well each child is progressing.

7 Key skills

7.1 The following skills have been deemed 'key skills' in the revised National Curriculum:

- ❖ **communication;**
- ❖ **application of number;**
- ❖ **computing (coding) and information technology;**
- ❖ **working with others;**
- ❖ **improving one's own learning and performance;**
- ❖ **problem-solving.**

7.2 We seek to emphasise these skills in all subjects through our curriculum planning, so that the children's progress in these areas can be identified and monitored.

8 The National Curriculum sets subjects out into two basic groups:

8.1 Core Subjects:

English:	Speaking and Listening; Reading, Writing, Spelling, Punctuation and Grammar (SPAG).
Mathematics:	Number, Calculation, Investigation, and Problem Solving
Science	Life Processes and Living Things; Materials and their Properties; Physical Processes
Computing and ICT	This subject includes basic programming (coding), and ICT.

8.2 Foundation Subjects:

History	Geography
Design Technology	Art and Design
Music	Physical Education

8.3 and Religious Education following the Gloucestershire Agreed Syllabus.

9 The role of the subject leader

9.1 The role of the subject leader is to:

- ❖ **provide a strategic lead and direction for the subject;**
- ❖ **support and advise colleagues on issues related to the subject;**
- ❖ **monitor pupils' progress in that subject area;**
- ❖ **provide efficient resource management for the subject.**

9.2 The school gives subject leaders regular non-contact time, so that they can carry out their duties. It is the role of each subject leader to keep up-to-date with developments in their subject, at both national and local level. They review the way the subject is taught in the school, and plan for improvement. Each subject leader reviews the curriculum plans for the subject, ensures that there is full coverage of the National Curriculum, and sees that progression is planned into schemes of work. The subject leader also keeps a portfolio of children's work, which s/he uses to illustrate the achievements of children at each key stage, and to exemplify the attainment expected.

10 Monitoring and review

- 10.1 Our Governing Body's Curriculum and Standards committee is responsible for monitoring the way the school curriculum is implemented. This committee reviews each subject area during its bi-annual cycle of review and development.
- 10.2 There is a named governor assigned to each area of the curriculum. These governors liaise with the respective subject leaders, to monitor the content and delivery of their subject. There is also a named governor assigned to special needs, who liaises with the SEN &D coordinator, and monitors the ways in which special needs are addressed.
- 10.3 The Headteacher is responsible for the day-to-day organisation of the curriculum.
- 10.4 Subject leaders monitor the way their subject is taught throughout the school. They examine long-term and medium-term planning, ensure that appropriate teaching strategies are used and organise moderation meetings. Subject leaders also have responsibility for monitoring the way in which resources are stored and used.
- 10.5 This policy is monitored by the Governing Body and is reviewed bi-annually or earlier if necessary. The next review will take place as soon as possible after the current interim period is over and the final version of the New National Curriculum Assessment Strategies for English and mathematics is confirmed or the school changes status to Academy, whichever comes first.

Signed:

Date: July 2015

Review Date: July 2017 (see above)
