

GET INVOLVED!

Transition Toolkit Questionnaire Via Survey Monkey: School/Parent/Child

Deadline for you to complete the survey is 26th May 2017

A multi-agency group has been formed to look at and improve support for children and young people's emotional health and well-being through transition from primary to secondary school. This includes: children and parental needs, best practice, transition relationships between primary and secondary schools, 'moving on' resources, and external support.

Set funding has been allocated to help us develop a multi-faceted Transition Toolkit which will bring together a range of guidance and resources for school staff, parents and children and help implement some changes in order to improve the transition experience for all our children.

The purpose of the three questionnaires is to gather separate views and experiences from schools, parents and children so that we can target additional support, best practice and resources in order to improve the emotional health and well being of all children during this critical transition.

We would appreciate your opinions – whether you are a primary or secondary school, parent or child currently involved in the transition process.
