

Special Educational Needs and Disabilities - Education Provision Consultation

We want every child in our Borough to have the very best start in life and we are looking at proposals to improve services so that Special Educational Needs and Disabilities (SEND) support and intervention is available earlier and closer to a child's home are being considered.

What does this mean?

- Additionally resourced provisions would be designated and organised into hubs covering central, south and north Stockton so support is available to all families locally
- Earlier support and intervention by specialist services such as occupational therapy, speech and language as well as educational psychology advice would be provided by the hubs
- The introduction of additional specialist school provision is also being considered

Consultation Meetings

Come along to one of our events to find out more and let us know what you think...
