

Year 4 Newsletter—Summer 1 2017

Dear Parents and Carers,

Welcome back to school. We hope you and your children had an enjoyable break.

Our topic will focus on British architecture since 1066. This is a new topic with plenty of opportunities for creative work in writing, reading and art. The children will find out about how architecture has developed over time and how Britain has progressed. Science this half term will be about solids, liquids and gases. Lessons will involve identifying, investigating, describing and sorting various different materials.

As the weather improves, P.E will be outdoors whenever possible. Children will be practising their athletic skills and learning tactics for invasion games such as football, netball and basketball. Please make sure your child has suitable PE clothes every TUESDAY.

If your child takes their musical instrument home, it is vital they bring it in for FRIDAY'S music lesson or your child may not be able to take part in the lesson.

As the weather gets warmer, please make sure your child has a water bottle in school and a hat to wear in the playground on particularly hot days.

Please encourage your child to use their school Jotter account where they can access a range of programmes such as Mathletics, which will support their learning. Log ins are available from class teachers.

Please don't hesitate to speak to any us if you have any concerns about your child.

Mrs Yasmin, Ms Begum, Miss Jehan, Ms Blake and

Mrs Zameer
