**Subject:** St Mary's RC Primary School - Home Contact

Dear Parent/Carer

We would like to apologise to all those parents who did not receive the email regarding enrichment this week.

Although it is never on in the last week of the Summer term we do send out a reminder just in case parents have forgotten.

However our home contact system has been causing us problems recently where parents are receiving messages sometimes but not always. Sometimes they can download attachments sometimes they cant.

It is very frustrating for all concerned.

There is good news on the horizon! We are having the Home contact system updated in the school holidays. The suppliers state it is a much improved system!

We will all be the judges of that in September!

We hope you all receive this email!

With kindest regards

The admin team
