

You will be given **3 weekly activities that must be done**. In addition, you have a further 4 activities you could choose from below. We are hoping you will put in a lot of effort for each piece and you will enjoy sharing all your hard work with the rest of the class.

WEEKLY	Reading (At least three times a week).	Spellings (Practise your spellings for your test). Complete the weekly home learning tasks set by Miss Moseley.
TERMLY	Cook a favourite Victorian recipe and take a photo or bring it into school! You can find some great ideas online, here's some to get you started: http://www.bbc.co.uk/food/collections/victorian_recipes Always ask an adult to support you with any cooking.	As part of our science work this term we are looking at electricity. Look around your home and find items which use electricity. Make a poster to show how you and your family use these items. Include labelled drawings or photographs of each electrical item and remember to use scientific vocabulary where you can. Can you also briefly explain what life would be like without electricity?
	Children had to make their own entertainment in the Victorian times, there was no TV! One of the ways they kept themselves busy was by putting on puppet shows in homemade shoebox style theatres. Make your own stage and puppets and entertain the class!	Mathletics is a fun online maths resource that the school has made available to you. Play games, solve puzzles and challenge yourself and your friends. Your login details will be inside your home learning books. You must include your score, the date and maths subject in your home learning book.

TOP TIP! Most of these projects may take a few goes before they are finished, that's normal. Plan out what you want to do before you start, chat through your ideas with someone else if you want to **but the end result must be your own work**. Take your time, redraft if you need to. Produce your best work and have fun!
