

Spelling Fish 1

Name:

Date started:

This is a spelling fish! This spelling fish is a way for you to help your child practise spelling key words.

Stick this spelling fish up where your child can see it. Encourage your child to regularly practise spelling these words and then every so often test them on a few words.

Once you are confident they can spell a word from memory (at least 3 different occasions of being able to spell it correctly) then they can colour in that word on the fish.

When the fish is completely coloured in, bring it back to school to be tested and maybe move on to a new spelling fish!

There are 8 spelling fish which cover the common and frequently used words children should learn to spell throughout the Foundation Stage and Key Stage 1.
