

Year 4,5,6 Cross Country

25/09/17

Five children from Hillside took part in a School Games cross country event held at Newsome High School. The event, organised by SPIN was attended by over 100 children. A course over the grounds of Newsome High School was explained and then the races began. All of the children from Hillside ran well and all of them finished their respective races. The experience that they have gained will be invaluable in future events. A big thanks must go out to the staff of SPIN and the Newsome High School young leaders, for making the event such a success.
