

# CFAT Facilities Limited

## Building Cleaning Services for Schools and Academies

CFAT Facilities have developed a trusted building cleaning model and a dedicated cleaning service created specifically for educational establishments like yours.

The service provides a cost effective solution to the problems of short, medium and longer-term cleaning resource through a dedicated and specialist traded support service.

The traded service works inside Nursery, Primary and Secondary buildings and also within commercial businesses. All of our employees are cleared to work in settings and establishments where they have access to children, young people and vulnerable adults. We undertake all aspects of cleaning including offices, classrooms, receptions areas, car parks and windows.

It's a cleaning service that clearly understands the day to day challenges schools and educational businesses face when it comes to building cleaning.

Whatever your requirements – from the deepest of deep cleans to full blown managed cleaning packages, CFAT Facilities have all the specialist skills and experience your school/academy needs...all in one place.

From clear and informed advice to TUPE transfers to integrating staff within a third party facilities management company, you can trust us to handle it all.
