

Dear Parents,

## Langtoft Bus Update

As some of you may know, there has been some concern among parents in Langtoft recently about the size of the Acklams bus being used to transport the children to and from school.

I have been in contact with the East Riding of Yorkshire Council transport office and have been given the following information.

The agreement with Acklams for our bus route, is for a minimum 38 seater bus to be used. As you know, there have been times when the bus sent has been smaller than this. The contract with Acklams allows them to use a bigger bus but not a smaller one.

We currently have 36 children that we know of with bus passes (please can I stress how important it is to register with the council for a buss pass - details can be found on ERYC's website under 'school transport' ). I have been asked to pass on the following advice: If parents notice that Acklams are using a less than 38 seater bus, there is an electronic form on <http://www.buswise.co.uk/> to notify the transport office or telephone 03456 445959. We are route number 641.

We will also continue to monitor the situation from school. Thank you for your support.
