

School News from Copley Junior School

Extra-Curricular Activities at Copley Junior School

At Copley Junior, we offer a wide range of extra-curricular activities to enrich our curriculum delivery. During the year, our clubs include: **Football, Cross Country, Cricket, Gym, Cooking, Aromatherapy, Magic, Street Dance, Sand Art, Choir, Archery, Home Learning, Opus and Art.**

Football - Our football club is very popular. It is led by an external specialist and takes place every Monday after school.

Archery - External specialists lead this exciting club at Copley. Children have opportunity to practise their skills and gain certificates at the end of the course of training sessions.

Street Dance - Our weekly Street Dance sessions are very lively, with children practising an energetic routine, ready to perform this to parents and relatives at their final club session of the term.

Aromatherapy - We are very fortunate to have a close link with a qualified aromatherapist who leads our Aromatherapy club. Children make a range of treats including: body wash; aroma bags; cherry bakewell pie soap; winter lip balms; magic bath oil and rainbow bath salts.

Sand Art - Children thoroughly enjoy creating sand art pictures with our outside providers. There are over 70 designs to choose from and children choose which sand colours to use to create their piece of art work, ready to take home at the end of each session.

Children's University

The Children's University initiative rewards children for taking part in extra-curricular activities. Children are able to bring their passports to all our after school clubs and peripatetic music lessons, as well as activities they attend from home, to have their extra-curricular involvement recorded. At the end of the year the children's success is celebrated at a very special graduation ceremony.

We look forward to sharing more of our school news soon.

Best wishes
E.A. Crayton
