

Literacy Homework

Date Handed Out: **Friday 13th October 2017**

Date Due In: **Wednesday 18th October 2017**

Menu

Bronze: For everyone to try.

Silver: If you're feeling confident.

Gold: An extra challenge.

Bronze:

This week, in science, we have been looking at Sir Isaac Newton's colour experiment and testing out his theory. For your homework, this week, I would like you to complete the **1 star comprehension** about his colour experiments.

Remember to write the answers into your book and not on the sheet!

Silver:

I would like you to complete the **2 star comprehension** about his colour experiments. **Remember to write the answers into your book and not on the sheet!**

Then, for a little challenge, can you create a mini non-chronological about what you have found out Newton and his colour experiment.

You can create this in your book and make it as long or short as you would like.

Gold:

I would like you to complete the **3 star comprehension** about his colour experiments. **Remember to write the answers into your book and not on the sheet!**

Then, for a little challenge I want to see what else you can find out about Sir Isaac Newton and any other discoveries he made in science. Can you create a mini non-chronological, about what you have found out Newton and his science experiments?

You can create this in your book and make it as long or short as you would like.

Remember to get your parents' permission, if you are using the internet. You are also able to use the computer at school to help with your research.
