

## Excerpts from our learning in Year 1 – Autumn Term 2017

As part of our 'Under the Sea' topic we have been reading and using the Jon Klassen book, 'This is not my Hat' to explore good and bad characters and to predict what might happen in the story based on what has happened so far.

We have also been using non-fiction texts and have labelled diagrams to present evidence about our class goldfish and how to care for them.

In our Maths lessons this half term we have been developing number skills through counting, place value, reading and writing numbers. This includes finding 1 more and 1 less than a number and the associated mathematical vocabulary and symbols.

Later this term our focus will also involve reading, solving and writing number sentences involving addition and subtraction.

Our focus in computing this half term is, 'We are Collectors.'

This has involved us using search engines to find images of sea creatures. We then sorted them using a binary code based on whether they had fins.

Before using the search engines to look for images we learnt about how to use the internet safely and to 'Think Before we click.'
