

Key Stage 2 Hockey Festival

7/11/17

Over forty children attended a hockey festival held at Newsome High School, run by SPIN. Eight children from Hillside took up the opportunity and they relished the experience. The first part of the evening was to teach the children the basics of Quicksticks hockey through fun activities. The children then went onto play several games in a round robin tournament. Every child improved their skill level and really enjoyed the evening. Another event is planned in a month's time so the children can put their new skills in to practice. The games were umpired by young leaders from Newsome High School, who were excellent.
