Review: June 2018

Policy for E-Safety and Acceptable Usage

Explanation of text
Physical Safety
Network Safety
Internet Safety
E-mail Safety
Cross curricular links
Use of Digital Images
E- Bullying
Mobile Phones
Other Technologies
Copyright
Data Protection Act
E-Safety Rules

“The internet and e-mail are powerful tools to open up new opportunities for people of all ages. The Government wants everyone to have access to the wealth of cultural, scientific and intellectual material to be found on the internet. But we are equally determined to ensure that pupils are protected from unsuitable material and that they can access appropriate material safely.”

(Michael Wills 2001 Minister for Learning and Technology)

New technologies have revolutionised the movement, access and storage of information with important implications for all schools. Use of ever more powerful computers, broadcast media, the Internet, digital recorders of sound and images together with increased opportunities to collaborate and communicate are changing established ideas of when and where learning takes place. At Chapel Allerton Primary school, we recognise that learning is a lifelong process and that e-learning is an integral part of it. Ensuring that we provide pupils with the skills to make the most of information and communication technologies is an essential part of our curriculum. The school is committed to the continuing development of our ICT infrastructure and embracing new technologies so as to maximise the opportunities for all pupils, staff, parents and the wider community to engage in productive, cooperative and efficient communication and information sharing.

However, as in any other area of life, children are vulnerable and may expose themselves to danger, whether knowingly or unknowingly, when using the internet and other technologies. Additionally, some young people may find themselves involved in activities which are inappropriate, or possibly illegal. E-safety seeks to address the issues around using these technologies safely and promote an awareness of the benefits and the risks.

This policy sets out clearly our expectations on pupils, staff, parents and members of the wider community to ensure best practice.

Key: Normal text gives contexts and information

Italic text indicates teaching given to pupils

Bold texts indicate key expectation to ensure positive and safe use

Physical Safety:

- All electrical equipment in the school is tested annually to ensure that it is safe to use. *Pupils are taught about the dangers of electricity as part of the science and PSHE curriculum.* **We expect pupils to behave appropriately near electrical sockets and appliances.**
- All the projectors in our school have maximum light levels below the government's health and safety guidance of 1,500 ANSI lumens. *Pupils are taught that they should not look directly at strong light sources such as the sun, lasers or data projectors.* **We expect all users to not look directly into the light beam when working on the interactive whiteboards.**
- Workstations are cleaned and sanitised regularly. *Pupils are taught to avoid taking food and liquids anywhere near the computers.* **We expect all users to refrain from eating and drinking when working at a computer.**
- Health and safety guidance states that it is not healthy to sit at a computer for too long without breaks. *Pupils are taught correct posture for sitting at a computer and that sitting for too long at a computer can be unhealthy.* **We expect all users to take responsibility for their own physical well-being by adopting good practices.**
- Computers and other ICT equipment can be easily damaged. *Pupils are taught the correct way to use ICT equipment.* **We expect pupils to respect ICT equipment and take care when handling and using.**

Network Safety:

- All users need to log on using a username and password. *Pupils are taught that they should only access the network using that particular log in.* **We expect all users to only logon using their username.**
- Each user is given an allocation of disk space for the storage of their work. *Pupils are taught how to save their work into their "My documents" area.* **We expect pupils to save and keep their work to build up a portfolio of evidence.**
- Access to other users "My documents" areas are restricted by the network. *Pupils are taught not to access another user's work without permission.* **We expect pupils to respect the privacy of all other users and to make no attempt to access or interfere with another user's work.**

- On the network there are “shared resource” areas where many different groups of users can save work so that it is available to others. *Pupils are taught how to access and save to these shared resource areas.* **We expect pupils to respect the contributions of others, not to delete or alter others’ work and to ensure that they only save work to shared areas with permission.**
- The default print setting is for black and white. *Pupils are taught to only print when necessary to save resources for financial and environmental reasons.* **We expect pupils to only print out work when directed by staff to do so.**
- The network software prevents changes being made to computer settings. *Pupils are taught that making changes may prevent the computer from working properly.* **We expect all users to make no attempt to alter the way the computer is set up.**
- Only the network administrators are permitted to install software on to computers. *Pupils are taught that the network or an application may not function properly if programmes are installed.* **We expect all users to make no attempt to load or download any programme onto the network.**
- All users of the network can be monitored remotely by the network administrators. *Pupils are taught that their use of the network can be monitored.* **We expect all users to understand that their use is subject to monitoring.**

Internet Safety:

- When using a network workstation all access to the Internet is protected by a number of different filters. These filters are designed to prevent accidental or deliberate access to unsuitable materials. In addition, the network administrators can manually add site addresses which are considered to be unacceptable. However, no system is 100% safe and we expect users to behave responsibly. *Pupils are taught that the Internet contains many websites that are useful but that there are also websites that are unpleasant, offensive, not child-friendly or can damage your computer.* **We expect pupils to make no attempt to access a website that they know to be unsuitable for children and/or containing offensive language, images, games or other media.**
- Pupils accessing the Internet at home are subject to the controls placed upon them by their parents. However, any home use of the Internet made in connection with the school or school activities; any of its staff, pupils and governors or any partnership organisation will be subject to this policy and any breach dealt with as if the event took place at school. **We expect all members of our school community to behave as positive ambassadors of the school in all school related activities made through the Internet.**
- The school website contains school policies, newsletters and other information. **We expect all persons accessing the school web site to treat the content with respect and make no attempt to reproduce, use or alter any part in any way with malicious intent. No part can be reproduced for commercial reasons without written permission from the school.**

Email Safety:

- The class teacher monitors the pupil's use of this email address and receives a copy of all incoming email. *Pupils are taught that emails sent from their class should have a clear learning purpose and be written in a polite style which is appropriate to the person that will receive it. We expect all users to communicate appropriately through email.*
- Some pupils will have their own web mail accounts at home. As these are independent of the school they do not necessarily come with the safeguards that we set for email usage. Therefore we do not permit the use of personalised email accounts by pupils at school or at home for school purposes. *Pupils are taught that using a personalised web mail account in school or for school use is not permitted. We expect pupils to use school issued email accounts only.*
- **Staff and Governor Email**
- All staff are required to use their corporate email for work related purposes only. Staff are asked not to check personal email accounts on a school PC or laptops, as it can cause increased spam on the network.
- Governors are required to communicate with school via corporate emails that are assigned to them.

Digital Images:

- Digital still and video cameras and iPads are used for recording special events as well as being essential tools for everyday learning experiences across the curriculum. As part of pupil induction, parents are asked to read the School prospectus with care, in which it states that images of children are occasionally used for school purposes. Parents who do not wish for images or videos to be taken of their child should put this in writing to the Headteacher. Some images celebrating the work of pupils involved in everyday and special event activities may be selected to be shown on the school website. On the website we never state a child's full name with their image. **The school will happily remove any image of a child on the school website at their parent's request.**
- Digital images may be shared with partner schools and organisations as part of collaborative learning projects. This can include live video conferencing. All such use is monitored and supervised by staff. *Pupils are taught to seek permission before copying, moving, deleting or sending any images taken within school. We expect all pupils to seek permission from staff before sharing images outside of the school environment.*

- **Staff use of personal images**

Staff do not use personal images of family or friends on desktops or screen savers on school laptops. All staff will use the corporate logo for St. Joseph's Primary school on laptops belonging to school. The Head accepts that sometimes within the context of teaching staff may want to use some personal photographs in moderation.

E-Bullying:

- The school takes bullying very seriously and has robust procedures for identifying and dealing with it. E-bullying is the use of any communication medium to offend, threaten, exclude or deride another person or their friends, family, gender, race, culture, ability, disability, age or religion. *Pupils are taught about bullying as part of the PSHE curriculum.* **We expect all members of our community to communicate with each other with respect and courtesy. Bullying of any type will not be tolerated by the school and will be dealt with under the procedures within the Whole School Policy on Behaviour, including bullying.**

Mobile Phones:

- Pupils are not permitted to have mobile phones upon their person in school. We recognise that our oldest pupils may walk on their own to and from school and parents may wish them to have a mobile phone for emergencies. However we discourage this on security grounds as they are easily lost, damaged or stolen. *Pupils are taught that they shouldn't have a mobile phone on their person in school and that any phone brought in must be handed to the office for the duration of the day.* **We expect pupils not to carry a mobile phone in school.**

- **Staff use**

We accept that most staff will own a mobile phone and have one in their possession during the school day. The school agrees they will be stored in a safe place with locks on. They may be used discretely during breaks.

Other technologies:

- **Teacher Laptops/iPads**

It is agreed by all staff that school laptops/iPads will be used for work related purposes in school and at home. The staff agreed no family/friends will use the school laptop for personal use.

Copyright:

- Though there are lots of free to use resources on the Internet, the majority of image, sound and music files are covered by copyright laws. Some can be used for educational reasons without permission provided that the source is stated and that they are not made available outside the school. Some cannot be used under any circumstances, this is particularly so for music but can apply to other types of file e.g. photographic images. Care therefore needs to be taken with multi-media work which incorporates anything downloaded from the Internet or any other published source that it is not uploaded onto the school's website or broadcast through any other technology. *Pupils are taught that the people who put their work on the Internet may not always want people to copy or use their work and that they should check whether they have permission.* **We expect all users to respect copyright laws.**
- It is important to know what work is original and when chunks of text have been copied from other sources such as the Internet. *Pupils are taught that they should not present the work of others as their own work. Older pupils are taught about copyright and how to extract or paraphrase information.* **We expect all pupils to make it clear what is their own work and what is quoted from other sources.**

Data Protection Act:

- The Data Protection Act 1998 gives you the right to access information held about you or your child by the school. The school has the right to charge for supplying this information. Further information on the Data Protection Act can be obtained from the Department of Constitutional Affairs – www.justice.gov.uk

Glossary of terms

Email Text based messages sent through the Internet

Internet A global network of computers which allow efficient communication from any point to any point

Network A group of computers linked together and often managed by a server

Server A computer that controls access to a network of computers and usually stores data for all users

Web mail Email service which is held on a secure website and can be accessed anywhere on the Internet

Signed..... Date.....

E-Safety Rules for KS1

Key Stage 1

We only use the internet when an adult is with us.
We can click on the buttons or links when we know what they do.
We can search the Internet with an adult.
We always ask if we get lost on the Internet.
We can send and open emails together.
We can write polite and friendly emails to people that we know

E-Safety Rules for KS2

Key Stage 2

Think then Click

E-safety Rules for Key Stage 2

- We ask permission before using the Internet.
- We only use websites that an adult has chosen.
- We tell an adult if we see anything we are uncomfortable with.
- We immediately close any web page we not sure about.
- We only e-mail people an adult has approved.
- We send e-mails that are polite and friendly.
- We never give out personal information or passwords.
- We never arrange to meet anyone we don't know.
- We do not open e-mails sent by anyone we don't know.
- We do not use Internet chat rooms.

Policy and Guidance on School ICT and Communications Systems

PART 1: to be retained by staff member

This declaration refers to the Governing Body's policy and guidance on the use the school's ICT and communications systems and confirms that you have been provided with a copy and that you have agreed to follow it.

All employees, supply agency staff, consultants and contractors are required to familiarise themselves with the contents of the policy on the use of ICT systems and sign the following declaration.

Declaration

You should sign two copies of this document; this copy to be retained by you. The second copy (below) is to be detached and placed your personal file.

I confirm that I have been provided with a copy of the school's policy on the use of the school's ICT and communications systems. I confirm that I am aware that all my electronic communications including emails and website searches may be monitored by the school and that this applies even if I am working from home on school equipment or networks.
