

## **School Jotter 2 Training**

## How to add and use the School Jotter 2 Mobile App

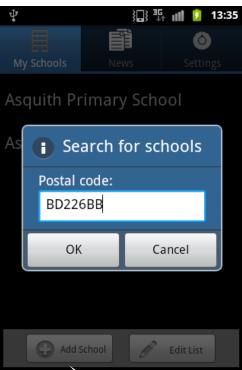

## Available as a video

You need to have an Android Device and know how to install an App.

- 1. Search the Google Play website for the Webanywhere School Updates App and install it.
  - a. For your convenience here is a link
    <a href="https://play.google.com/store/apps/details?id=com.app.schools&feature=search\_res">https://play.google.com/store/apps/details?id=com.app.schools&feature=search\_res</a>
    ult#?t=W251bGwsMSwyLDEsImNvbS5hcHAuc2Nob29scyJd
- 2. Run the App and the Flash page is displayed and then click the **Add School** button and search for your school using it's Postcode

Click Add School button

- 3. The news items are displayed in the News Tab and the settings in the Settings Tab
- 4. This application gets the news items from the News information in your School Jotter 2 website. When you add News items to your website they are automatically sent to the Mobile devices.
