

## Hertford Vale C.E Primary School – Evidence of the Impact of the Primary PE and Sport Premium 2017 2018.

Activity	Intended Outcomes	Use of funding / cost implications	Suggested Cost	Actual Spend April 2018	Intended / Actual Impact on the Pupils
<b>Gymnastics</b>	To provide children from Reception to Year 6 an opportunity to experience gymnastics taught by a professional coach during the academic year. Children will access quality provision and work on a series of exercises designed to challenge and extend their skills.	A specialist instructor from Driffield works with the children on a weekly basis. Throughout the year, all children in school have access to these sessions.	£3000	£2130	Children have developed their strength and body control through accurate body movement and instruction. The discipline of gymnastics allows children to develop their self-worth and ability to see their skills grow as the weeks move on. High expectations also drive forward the children's outcomes.
<b>Swimming</b>	To meet the statutory requirements of providing children with appropriate swimming skills.	Cost of transport to the pool, provision of lifeguards and the sessions over the six weeks	£1000	TBC	Give children experience of swimming instruction in a controlled environment. Encourage reluctant swimmers to become more confident and to become more competent at swimming independently.
<b>Outdoor and Adventurous Activities</b>	To develop a link with a local Forest School to provide outdoor experiences for the children. This will initially be run in the YR/Y1 class with a view to eventually rolling the approach out to all classes.	Resources and transport costs are required when travelling to the local school and when developing experiences in our own setting.	£1200	£1000	To give the pupils a chance to learn in a different environment to that of the classroom and outdoor area. To give opportunities for stimulation on a physical and sensory level with a view to impacting on all areas of the curriculum through creative teaching.
<b>Dance</b>	To give the pupils opportunities to engage in dance sessions with qualified professionals and to work towards a finished dance routine	Employ professional dance instructors.	£3500	£2580	Give children of all ages the chance to experience the development of core strength through dance. A heightened level of self-awareness and self-esteem is also a desired outcome as children who do not necessarily shine academically can do so through other means.
<b>Basketball</b>	To provide experiences that are outside the normal realms of football and swimming. Giving children a chance to work with a qualified basketball coach allows additional skills to be developed.	The instructor provides the appropriate equipment and resources to deliver weekly sessions.	£1200	£730	Hand/eye coordination skills will be developed during these sessions. Teamwork and resilience are also impacted on in a positive way through disciplined instruction and high expectations.
<b>Football</b>	Through football and fitness coaching, give children across the school a weekly session of activity that is designed to increase fitness and encourage healthy choices.	Weekly sessions for a football coach to work with children in both key stages.	£2300	£1230	Instil a desire to participate in activity designed to develop fitness and wellbeing. Participation from children of all abilities is the norm as is encouragement of children with low self-esteem.
<b>Cricket</b>	Summer sessions of outdoor cricket gives an added dimension to the sporting calendar and develops a different set of skills.	Paying for the cricket coach to come to school to deliver sessions.	£500	£400	Development of throwing and catching skills will be developed as will the ability to think strategically. Teamwork and an inclusive approach is designed to encourage all children in taking part.
