

# PARTNERSHIP LEARNING TEACHING SCHOOL ALLIANCE

## **Growth Mindset: Creating a Classroom for Success**

Delivered By:  
Emily Manning

National College for  
Teaching & Leadership

### **The Programme:**

#### **Content:**

This two-day programme will delve deeply into how to create a classroom where pupils are ready and eager to learn in a test driven culture. We will look at approaches that emphasise students' social, mental and academic growth. Backed by theory from Maslow, Bloom and Dweck, these sessions will equip teachers with practical ideas and tools through observations, discussions and activities.

The sessions will help teachers to gain confidence in teaching social skills, encourage students to be more resilient and persevere through challenges using a 'Growth Mindset', be more consistent in getting children to think more critically and create lessons which challenge and engage all pupils.

#### **Audience :**

This programme is aimed at Recently Qualified Teachers, middle and senior leaders.

#### **Course Presenter :**

Emily is an SLE and a well established class teacher and leader at Warren Junior School. She has an excellent track record of outstanding teaching and leadership in her areas with a focus on ITT and RQTs.

#### **Facilitated by :**

Warren Junior School
