KS1 Easter Holiday Home Learning

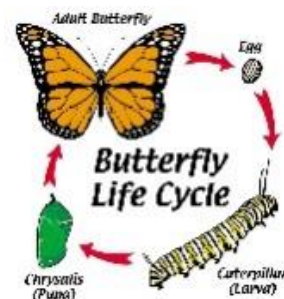

Dear Parents/Carers,

Spellings

We have sent your child home with a list of spellings for them to practice over the holidays. These are all spellings that your child needs to master not just during the weekly test but also consistently and correctly in **all** of their writing. Please feel free to experiment in as many ways as possible to ensure your child is able to spell these words correctly every single time they write them. Please note that after the Easter holidays spellings will be sent home on a **Monday** and the children will be tested on a **Friday** as we have found we have lost many Mondays due to bank holidays and forest schools learning etc.

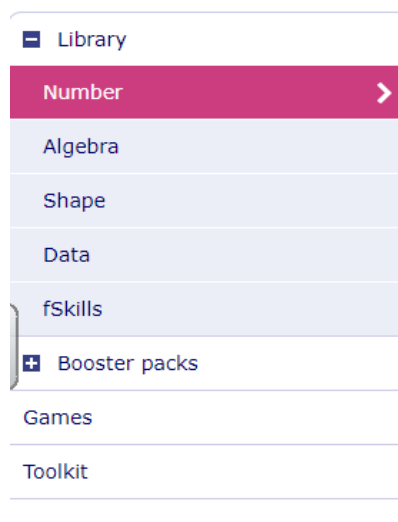

Home Learning Project

This half term, as we will be looking at lifecycles of different animals we are asking the children to present the exciting lifecycle of a caterpillar to a butterfly in any way they like. (All creative ideas welcome!) We will be sharing these in class on the **week beginning 23rd April**. Please ensure they are in school by this date as we cannot guarantee that they will be shared with the class after this date.

MyMaths

MyMaths is set on a fortnightly basis and where possible will link to the learning in class. Please also feel free to access the library for **your child's year group** along with the games which will support your child in their maths learning if you require any further activities. This can be found once you have logged on to the left hand side of the screen as shown here.

Bug Club

Children can access and change their paper back Bug Club books on a daily basis in school, it is always best for them to change their books when they first arrive in the morning so please help us to remind them when you drop them off. Bug club books are also regularly updated online as and when the children need them. Please continue to share a range of other books with your child and we would really appreciate it if you could continue to question them on their understanding of what they have read.

Thank you for all your support and cooperation 😊

KS1 Team
