

Topic

At Guilsborough C of E primary school we teach our Geography, History, Art and Design Technology through specific termly or half-termly themes provided by ProspectUs Scheme of Works.

The themes have key activities linked to each area of the curriculum and exciting, high-quality learning experiences for the children. The statutory requirements of the national curriculum are fully covered throughout the given themes.

Please see our curriculum maps for a breakdown of these topic areas (Website/Our School/Curriculum). We also have many curriculum enrichments events throughout the year including Art day, History day, No Pens Communication Day, Chinese New Year, St George's and British Values day, Food and Cookery week and World Book day.
