INFO

The new **K-375 sole** comes from the close cooperation between the KAPRIOL LAB experts and the unparalleled know-how of MICHELIN TECHNICAL SOLES designers. A sole characterized by high performances of resistance and traction, it is able to adapt to different soil types, both indoor and outdoor. A real “must-have” for professionals of building and construction industry. MICHELIN TECHNICAL SOLES designers have engineered a perfect mix for work shoes, by identifying the best tread design. This perfect combination permits to obtain the best performances in terms of comfort, durability and traction, necessary in most working environments.

Microfiber - It is considered for its qualitative characteristics, the reference point for innovation, resistance, lightness, permanence and breathability. It is an ECO-FRIENDLY material because it is produced without the use of heavy metals or polluting and dangerous materials. Easy to clean, it is the final point of scientific and technological research.

TECHNICAL FEATURES

SPECIFICATIONS

- Special non-slip self-cleaning grooves guarantee excellent adherence to all surfaces
- Padded tongue and collar with dart protect the foot and prevent water, sand and gravel entrance
- Rubber toe reinforcement prolongs durability in time
- TPU protection
- Reinforcement on the heel

MATERIALS

- **Sole** : EVA/Rubber Michelin
- **Upper** : Microfiber + TPU

DECLARATION OF CONFORMITY

- SILVERSTONE GREY
- SILVERSTONE RED
- SILVERSTONE GREEN
