Key Fly = Butterfly IM = Individual Medley (Fly, Back, Breast, Crawl) Pull = Pull buoy Kick = Kick board or just kicking

SOMETIMES YOU'VE got to really focus on something in order to improve at it, and that's certainly the case with swimming. But once you've mastered it, there's no looking back and your improved technique will stay with you for a long time. So let the bike and running shoes take a back seat and dedicate a month to improving your stroke with these two training plans. **Training Plan 1** consists of shorter workouts (1.5 to 3km), so choose this one if you race

sprint distance, or you have limited time. **Training Plan 2** involves longer sessions, between one and two hours, and will make the biggest difference to your swimming. All the sessions below should begin and end with a warm-up or warm-down of at least 400 metres. You can do whatever you like in the warm-up and warm-down as long as it is low intensity. For example, try 4 x 100m with 20 seconds rest alternating between swimming 100m and kicking 100m with a float. Try giving back and breaststroke a go too.
