Professional Labelling Machine

The lightweight and portable P-touch 1090 is the perfect labelling machine to help you organise your office or home.

- Built-in clock
- Cable labelling function
- Deco Mode function for stylish labels
- Includes 12 mm TZ-231S black on white laminated labelling cassette (4 m)
- Prints 3.5, 6, 9 and 12 mm labels

Clearly label all your file folders, CD's, shelves and archive files with the P touch 1090, for the perfectly organised office and home

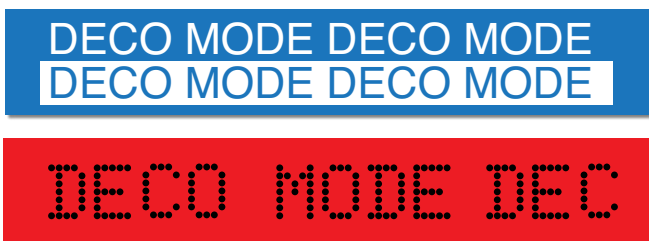

Using the built-in clock, you can add today's date to your label with a simple press of the date key

Organise your office or home

An efficiently organised workplace needs clear identification of items such as file folders, suspension files, filing cabinets, CD's & DVD's and letter trays. The compact and portable P-touch 1090 labelling machine creates labels in an instant and with the wide variety of widths and colours available, there is a tape for all your needs.

Built-in clock

Attach labels to your files to show the exact date when the information was archived using the built-in clock. You can quickly add the current date to your labels with just one simple press of a button. In addition to the date, the time can also be included if required. Ideal for archiving purposes, or to indicate when food is stored in the fridge/freezer.

Deco Mode labels bring fun to the office, and there are 12 built-in designs to choose from. Simply choose your design, type your text and print.

Cable labelling made easy

Modern offices have so many power plugs, adapters/chargers, network cables and other wires, that it can be difficult to identify which cable belongs to which device, and connecting an adapter or cable to the wrong piece of equipment could cause permanent damage. The P-touch 1090 has an easy to use cable labelling function that prints labels that can easily be wrapped around a cable, ensuring that costly mistakes are avoided.

Quick and easy labelling in the palm of your hand

The P-touch 1090 has a large, easy-to-read display that ensures effortless labelling every time. The compact and portable design makes it easy to hold and can be shared with colleagues around the office, and gives the freedom to create labels on demand, wherever and whenever they are required!

Add one of 7 different stylish frames to your labels to add emphasis to your message.

P-touch laminated TZ tapes are highly durable, as the characters are sandwiched between two layers of protective polyester film. Results prove that Brother P-touch laminated labels out-perform competitor labels in a variety of situations.

The built-in cable labelling function creates special labels, allowing them to be applied easily around cables throughout your office and home.

The easy-to-use Deco Mode creates stylish labels in an instant.
