BOOST ORDER PRODUCTIVITY & WORKFORCE EFFECTIVENESS

LCV Solutions

Class-leading remote management for your vans and workforce

- **Improve cash flow** with faster invoicing
- **Reduce insurance costs** with camera evidence
- **Respond to customer enquiries faster** and with better visibility
- **Go paperless** reducing administration time and improving COVID safety standards
- **Look after driver wellbeing** with data driven fleet insights

The net result? Happier customers, a more productive workforce and an improved bottom line.

Choose your solution

Digital job and workflow management.

The paperless revolution is here. Our cutting-edge digital offering allows your business to free up cash with faster invoicing. Improve billable time by boosting order productivity and workforce effectiveness.

Track +
JobTrack,
Job + Nav

Job planning

Plan and schedule your jobs easier and faster. Identify the best driver for each order using our smart scheduling. Dispatch with job and vehicle status, while factoring in award-winning TomTom traffic information.

Advanced telematics

Powered by Europe's number one telematics platform WEBFLEET, offering best-in-class data accuracy and performance reporting of your vans and drivers.

Working time reporting

Keep a track of your employees' working hours with time management reporting, helping you to stay compliant and meet local legislation requirements.

HMRC mileage compliance

Satisfy HMRC compliance with trip reports for mileage claims and tax detail verifications. Reduce your tax burden and cut time spent on trip administration.

Driver safety and wellbeing

Encourage safer driving with gamification and league tables using our in-built scoring system. Optional in-cab live driver feedback can train personnel on the road^.

Premium rugged tablet

Our 7" ruggedised tablet is optimised for both in-vehicle and outdoor usage. Powered by Android and supporting important standards for the integration of Driver ID, NFC tags, wireless file transfers, two way communication and much more.

Commercial grade navigation & traffic information

Industry leading TomTom commercial grade 3D navigation. See the fastest routes and get accurate ETAs.

[^] requires optional WEBFLEET PRO driver terminal.
