

Prepare for an Exciting  
and Rewarding Career  
in Emergency Medicine!

## Ethos Veterinary Emergency Training (E-VET) Program

E-VET offers a unique training experience with diverse learning opportunities and focuses on core competencies identified as essential for emergency veterinarians. During the nine-month program you develop clinical aptitude, professional and communication skills, as well as strategies for maintaining a work/life balance. Additionally, you participate in weekly topic rounds, hands-on procedure labs, morbidity/mortality rounds, grand rounds presentations, Ethos journal club and attend one specialty conference.

Part of your training will take place online in a custom learning environment developed with our learning partner, VetBloom, to allow you to develop skills you may not have the opportunity to learn while working with patients.

Last but not least, Ethos has numerous ongoing clinical trials in which we welcome your involvement. After your training you will transition into a full-time emergency position at one of our locations.

*Follow Ethos Veterinary Health!*

## Program Details

### START DATE:

June 14, 2021

Rolling start dates after June 14, 2021

### DURATION:

Nine months

### LOCATION:

Massachusetts Veterinary  
Referral Hospital

Woburn, MA | [massvet.ethos.com](http://massvet.ethos.com)

[ethosvet.com](http://ethosvet.com)

## Our Commitment to You

### WE PROVIDE:

- \$100,000 per annum salary\*
- \$1000 per month housing stipend\*
- Minimum \$110,000 base salary plus production after completing the E-VET program
- Competitive benefits package including insurance with no waiting period
- PLIT, AVMA membership, licensing fees, and DEA license at no cost to you
- Conference travel and registration for one specialty conference\*
- Annual continuing education allotment after completing the E-VET program

### DURING THE PROGRAM YOU WILL:

- Have two consecutive days off every week
- Have 11 days of paid time off
- Never be on-call
- Always have other doctors in the hospital with you – you will never be the only doctor

*\*During the nine-month training period*

## Your Commitment to Ethos

After completing the E-VET program, you will work as an emergency clinician for two years at an Ethos hospital. The hospital location will be mutually agreed upon based on your needs and the needs of Ethos.

## Who should consider the E-VET Program?

- New graduates of an accredited veterinary school who wish to pursue emergency medicine and are looking for a more focused program (than a rotating internship) preparing them to be successful emergency clinicians in a busy, multi-specialty ER environment.
- Practicing veterinarians wishing to transition to small animal emergency medicine.
