

Systems Engineer

(DevOps)

Systems Engineer (DevOps)

We are looking for experienced DevOPS Engineer and SRE Engineer as part of our agile teams in the Technology Center of Excellence. At Lufthansa Systems we are fully aware of the importance of combining the know-how of IT experts with aviation knowledge and this is why the Technology Center of Excellence (TCoE) was created. TCoE creates, maintains and operates shared services and cloud foundations for its customers that solve cross-cutting problems. The project is divided into several areas (TCoE Enterprise Shared Services, TCoE DevSpace Service, TCoE Observability Service, Managed Global Aviation Cloud) and which one to join will be up to you. By joining the TCoE project you will have a real impact on the result of your work and you will see the results in the production environment of your work.

Who are we?

Lufthansa Systems Poland is acclaimed and widely recognized provider of superior services and IT solutions for the aeronautical, logistic and financial industries. As a part of the Lufthansa Group we implement technological solutions and dedicated services.
