

JEGG.com

JEGG is a premium, pronounceable, 4L, dot-com domain name that has a variety of use cases. “GG” has been used by many in the gaming industry in their branding and advertising because of the age-old abbreviation, “gg,” meaning good game circa the year 2000, before voice chat was commonplace, and signifying online sportsmanship. This makes JEGG uniquely situated as an excellent brand for online gaming, online gambling, or a new networking platform for gamers. JEGG is the exact type of short, pronounceable name a new company or product needs to disrupt a well-established industry.
