About OXIMO®

From the very beginning of its existence, OXIMO® has placed particular emphasis on a rich and transparent offer of its products. Thanks to the growing portfolio, currently over 400 references of wiper blades, we are a significant supplier on the Polish and European markets.

Partnership

We collaborate with some of the largest automotive wholesalers in Poland and are actively extending our reach internationally. Our business partners benefit from high service standards, facilitated by our B2B panel and expedited delivery services.

Global expansion

Our ongoing strategic objective is to expand our distribution network outside Poland. We are driven by the ambition to make OXIMO®, a recognizable Polish brand on an international scale.

Quality

OXIMO® wiper blades meet all required automotive quality standards, including compliance with international IATF 16949, REACH and RoHs regulations.

Brand development

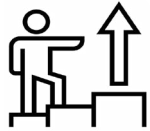

As the leading manufacturer of car wipers in Poland, our brand is gaining visibility across Europe. We are committed to continuous improvement and are making strides toward becoming a well-recognized name in the global wipers industry.

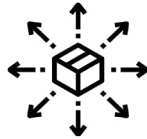

Our team

One of the pillars of Oximo's success is our exceptional team. We have been building it for many years and have successfully selected professionals who are specialists in their field. Today, our team includes the most qualified people in the industry. Windshield wipers are their passion.

Our team - the key to success

One of the pillars of Oximo's success is our exceptional team. We have been building it for many years and have successfully selected professionals who are specialists in their field.

Today, our team includes the most qualified people in the industry. Windshield wipers are their passion.

Our distributors – trust and partnership

We have gained the trust of automotive industry leaders on the spare parts distribution market. We cooperate with the largest automotive wholesalers in Poland and abroad.

Our business partners know that by choosing OXIMO® can count on the highest standards of cooperation.

Our distributors value our commitment and flexibility.

A Polish company with global ambitions

Our story began in 2009 when we offered the first solutions to our clients. Thanks to good knowledge of the industry, rich offer, and high standards of customer service, within a few years we have become a professionally managed business organization. OXIMO® is also a young, ambitious team of professionals, enthusiastic people and automotive experts.

Today, we are consistently building our position in the market and belong to one of the most recognizable and trustworthy brands in Poland. We are constantly looking for new areas of expansion. From the very beginning, OXIMO® focuses on a wide and transparent offer.

Over 400 references for windshield wipers mean OXIMO® can meet the expectations of even the most demanding customers. We cooperate with the largest automotive wholesalers in Poland and abroad. We provide our business partners with high standards of service through access to the online ordering panel and fast deliveries. OXIMO® consistently develops a distribution network outside the country, with the ambition to create a recognizable Polish brand with a global reach. Furthermore, we have our own research and development facilities to improve our products and introduce new innovative solutions to the market. Supporting, promoting, and participating in activities related to motorsport has been our passion - for years. You can find our rally teams at the largest automotive and rally cross events or time attack races.

We have all the required certificates, such as the IATF 16949, international REACH and RoHs which means that our wipers do not contain any substances harmful to health.

OXIMO® has been awarded the TecDoc® Premier Data Supplier badge. The title we have received is the result of our commitment to the transparency and accuracy of the data in the TecDoc® catalogue. As an OXIMO®, we promote the strategy of sustainable development and corporate social responsibility. We join the activities of the local community, support foundations, raise the level of organizational culture and shape a positive image of the company among consumers.

Cooperation

Develop your business, and enrich your offer with our various products. This is an open invitation to You to cooperate with us! We are still looking for business expansion.

OXIMO® focuses on a rich and transparent offer. We have 400 references of windshield wipers, which puts us at the forefront of global manufacturers.

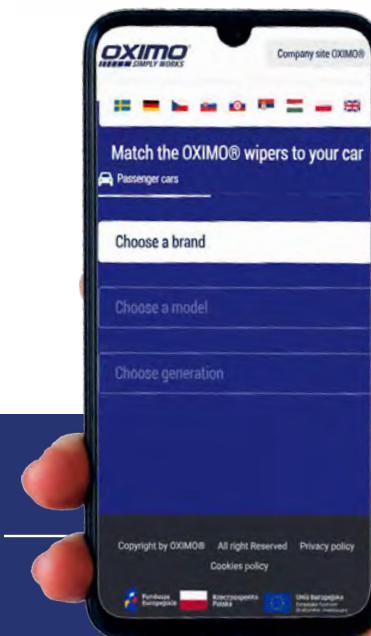

As a leader in the industry, we cooperate with the largest automotive wholesalers in Poland and abroad. We provide our business partners with high standards of service through access to the online ordering panel and fast deliveries.

We are consistently developing a distribution network with the ambition to create a recognizable Polish brand with a global reach.

Quality control

Research & Development

At OXIMO®, we have a dedicated research and development center. Here, we focus on improving our existing products and exploring new solutions within our capabilities.

Material composition

High quality steel, individual rubber composition, plastic elements based on polyethylene and polycarbonate. The steel rail inside the spoiler is constructed from high-carbon steel and is fully galvanized for added durability.

Unique compound innovation

We have introduced windshield wipers that utilize PTFE (Teflon) as a rubber additive. This compound is known for its low energy surface, which provides some lubricating benefits and helps to resist contaminants.

PRODUCT FEATURES

MOST IMPORTANT FEATURES OF OUR PRODUCTS:

- **Intuitive:** Different colours and intuitive markings on the packaging make it easy to choose the right range of OXIMO® wipers.
- **Simple installation:** Easy and quick installation on the wiper arm, without the need to use additional tools.
- **Precise fit:** Modern design ensures even pressure and perfect fit to the curvature of the glass.
- **High quality materials:** Plastic components are made from high quality polyethylene alloy and polycarbonate to ensure long product life.
- **Advanced technology:** Wiper blades made from a mixture of rubber and silicone, coated with a layer of PTFE, effectively collect water and ensure quiet and smooth operation.
- **Corrosion resistance:** Galvanised steel strip, powder coated for high corrosion resistance.
- **Versatility:** Works well in all weather conditions, from frosty winters to hot summers.
- **Customer trust:** The quality of our wipers is backed up by millions of satisfied drivers around the world.
- **Eco-friendly:** Produced in an environmentally friendly way using recyclable materials.
- **After-sales support:** We offer full technical support and instruction on the installation and use of our products.

Personal Branding with OXIMO®

Unlock the potential of private labeling.

OXIMO's private label program is designed for businesses that want to develop the wiper market under their own brand name. With over 14 years of industry experience and a presence in 30 countries, we offer a ready-to-use solution that covers everything from product development to logistics.

Why choose OXIMO® private label?

Know-how: Leverage our extensive expertise in windshield wiper manufacturing since 2009.

Quality assurance: Benefit from our commitment to high product quality, backed by rigorous quality control measures.

Full-service packaging: We handle the entire packaging process, from design to production.

Logistical support: Our comprehensive door-to-door service ensures a seamless transition from production to delivery.

Data-driven: Utilize our sales statistics and matching tables, covering over 68,000 car models, to optimize your product range.

Distinctive packaging colors for each series of our wiper blades make it easier to identify our products.

The use of various colors and intuitive markings simplifies the process of selecting the right type from OXIMO's available wiper series.

WU, WU12, WUH, WUS, WUSP, WA-WL, MT, WR, WRA - SERIES

Passenger cars

MT multi-adapter wipers

Lengths available: 350 - 800 mm
Quantity in package: 1 pc
Construction: frameless

Frameless wipers with an integrated spoiler. The Multi Type indicates that this wiper series includes 12 adapters, suitable for a wide range of car wiper mount types: U, A, B, B1, C, C1, C3, D, E, E1, F, K, as listed in the directory. The wipers feature a symmetrical two-sided spoiler. This design makes them suitable for cars with the steering wheel on either the right or left side, as well as for vehicles equipped with an anti-rotation wiper system.
