Tap Into Nature's  
Revitalizing Principle –  
Anywhere, Anytime.

THE SOLUTION

## REVITALIZE WITH *e-Relief*

Do you spend a lot of time indoors, working with computers and cell phones? Frequent exposure to environmental stressors like electromagnetic pollution (electrosmog) leads to loss of energy, chronic fatigue and stress.

### Benefits of *e-Relief*

- EMF Protection
- Cellular Health
- Healthy Sleep
- General Vitality
- Immune Resistance
- Stress Reduction
- Disease Prevention

*e-Relief* enhances the body's natural ability to withstand environmental stressors such as eletrosmog by leveraging nature's own frequencies, such as Schumann waves.

Schumann waves represent a spectrum of frequencies in the 7 Hz to 100 Hz range that are proven to have a significant impact on our health and well-being, especially when we are insulated from nature. The principle has been tested both in bunkers and space stations.

In addition to Schumann waves *e-Relief* also generates other natural fractal frequencies, magnetic waves and digitalized substance spectrums for maximum revitalisation on cellular level.

*e-Relief* has 36 custom program modes (see back page) that each have a unique ability to support the body's resistance against environmental stressors, increase overall energy, boost the immune system and increase overall resistance.

*e-Relief* provides relief for inflammation, brain fog, headaches, chronic pain, sleeplessness and other common stress symptoms.

*e-Relief* generates a field that is sufficient to cover a 100 m<sup>2</sup> space, an office or home space.

A separate biotrode (antenna) can be deployed to energetically support specific areas of the body.

With *e-Relief*,  
you feel like you're  
in the middle of the  
nature, even when  
you're not.

*e-Relief* mimics nature's  
revitalizing principle to  
increase cellular energy  
and counter environmen-  
tal stressors with  
biophysical signaling.

THE PROBLEM

## WHAT IS ELECTROSMOG?

The reality of harmful manmade radiation (electrosmog) is no longer in dispute despite industry denials. Hundreds of studies record both short-term and long-term effects from cumulative exposure to electrosmog such as cellphone and wifi signals.

### Electrosmog sources

- Cell phones
- Wi-Fi routers
- Computers
- Cellular towers
- Smart meters
- Baby monitors
- Cordless phones
- High- and low-voltage lines
- Bluetooth
- Radar units
- Microwave ovens

Human exposure to electrosmog increased dramatically in the 1990s with the introduction of cell phones and other microwave applications.

Clinical studies show that excessive EMF leads to mitochondrial dysfunction, excess free radicals, cellular damage, DNA breaks, and disruption of protein production in the cells.

Excessive free radicals have been linked to increased rates of anxiety, ADHD, Alzheimer's, autism, cardiac arrhythmia, depression, and infertility.

Children and pregnant women are especially sensitive to electrosmog. Limiting, blocking, or filtering EMF

with traditional methods is difficult to impossible in urban environments.

#### SHORT-TERM EFFECTS OF EMF ACCORDING TO STUDIES

Depression • Irritability • Difficulty in Concentrating • Memory Loss • Ear Problems • Skin Problems • Vascular Problems • Headaches • Fatigue • Dizziness • Cardiovascular Abnormalities • Sleep Disorders • Depression • Irritability

#### LONG-TERM EFFECTS OF EMF ACCORDING TO STUDIES

Mitochondrial dysfunction • Excess Free Radicals • Cell Damage • DNA Disruption • Accelerated Aging • Cognitive Degeneration • Chronic Disease • Mental Disorders • Infertility • Brain Cancer • Testicular Cancer • Breast Cancer

THE SCIENCE

## WHAT ARE SCHUMANN RESONANCES?

The Schumann resonance is a planetary wave generated by the upper layers of our atmosphere. Lightning feeds the planet with an extremely low frequency which is proven to have a regenerating effect on cells, helping the human body resist environmental stressors.

Life evolved over billions of years under Schumann waves and other natural frequencies. The human organism relies on these frequencies as natural harmonic guides to help cells regenerate and repair damage, especially when subjected to disharmonizing frequencies such as electrosmog.

*e-Relief* combines Schumann waves with several environmental frequencies known to assist and support living mechanisms, including the vibrational energies and electromagnetic waves that we can discover in nature.

*e-Relief* creates an energy algorithm with the power to protect and restore the body from the hazards of electrosmog in everyday modern life.

#### HOW DO FREQUENCIES WORK IN THE HUMAN BODY?

All matter – both organic and inorganic - vibrates with electromagnetic frequencies. Organs and micro-organisms in our body generate specific electrical currents that flow through the tissues and therefore create magnetic fields both within and around us.

These electromagnetic fields allow for instant communication between our body systems, cells, and functions that operate with cellular energy (ATP). The efficiency of this communication is measured by resonance.

Resonance is the process by which these frequencies transfer vibrational energy from one object to another, allowing for instant communication.

Modern medicine and biochemistry, however, focuses primarily on chemical energy, which is too slow to explain how our physiological, biochemical, anatomical, and energetic systems function.

The purpose of *e-Relief* is to re-establish the benefit of resonance to the body so that we can maintain healthy functions. *e-Relief* applies natural frequencies to help our bodies receive, store, and release energy and information for optimal functioning.

It operates on a higher level of causality than chemistry, just as quantum physics operates on a higher level of causality than classical physics.

**PROGRAM OVERVIEW**

A variety of energizing programs,  
 developed to support specific functions of your body.

**GENERAL PROTECTION AND  
 REVITALIZATION**

- 01 • Regeneration
- 02 • Thorax/Heart
- 03 • Joint/Pelvis/Legs
- 04 • Kidneys
- 05 • Eyes/Sinuses
- 06 • Left Lateral
- 07 • Cranial/Jaw
- 08 • Right Lateral
- 09 • Brain/Dura
- 10 • Tissue Overall
- 11 • Reorganisation overall/  
 Shoulders/Neck
- 12 • Middle Axis/Spine

**TARGETED BIOTRODE MODES  
 IN LOW/HIGH INTENSITY**

- 21/41 • Neutralizing
- 22/42 • Detoxing
- 23/43 • Deacidification/Pischinger
- 24/44 • Spinal Cord/C8
- 25/45 • Hormone Glands
- 26/46 • Left Lateral
- 27/47 • Head
- 28/48 • Right Lateral
- 29/49 • Neurones/Proteins
- 30/50 • Stimulation
- 31/51 • Abdomen
- 32/52 • Meridians

**Only with Biotrode, max. 20 minutes**

- 61 • Energetic Support of Pain

**SPECIFICATIONS**

Dimensions: 15\*10\*4 cm  
 Weight: 280 g  
 Charger: USB-C / 5 V / 1.000 mA  
 Battery: Lithium-ion 2.6 Ah  
 Operating Temperature: 0 - 40 Celsius  
 Operating Time: Up to 8 hours

**Basic-Kit –  
 € 2,200 +VAT**

- e-Relief device
- Desk Stand
- USB-C cable, 1 m
- Power plug
- Manual

**With Optional Equipment –  
 € 2,575 +VAT**

- Additional:
- Custom Suitcase
  - Biotrode Antenna
  - Biotrode Cable
