# TOOLS YOU WILL LEARN

# FULL STACK DEVELOPMENT WITH DSA

## MASTER THE IN-DEMAND SKILLS

Our meticulously crafted Full Stack Development with DSA curriculum equips you with a comprehensive understanding of both front-end and back-end development, along with a strong foundation in Data Structures and Algorithms.

### FRONT-END DEVELOPMENT

JavaScript & Frameworks (React/Vue.js): Master client-side scripting and create dynamic web applications.

HTML5 & CSS3: Build visually appealing and responsive user interfaces.

UI/UX Design Principles: Learn the fundamentals of user experience design for optimal user interaction.

### BACK-END DEVELOPMENT

Database Management Systems (MySQL/PostgreSQL): Understand data storage and retrieval for efficient web applications.

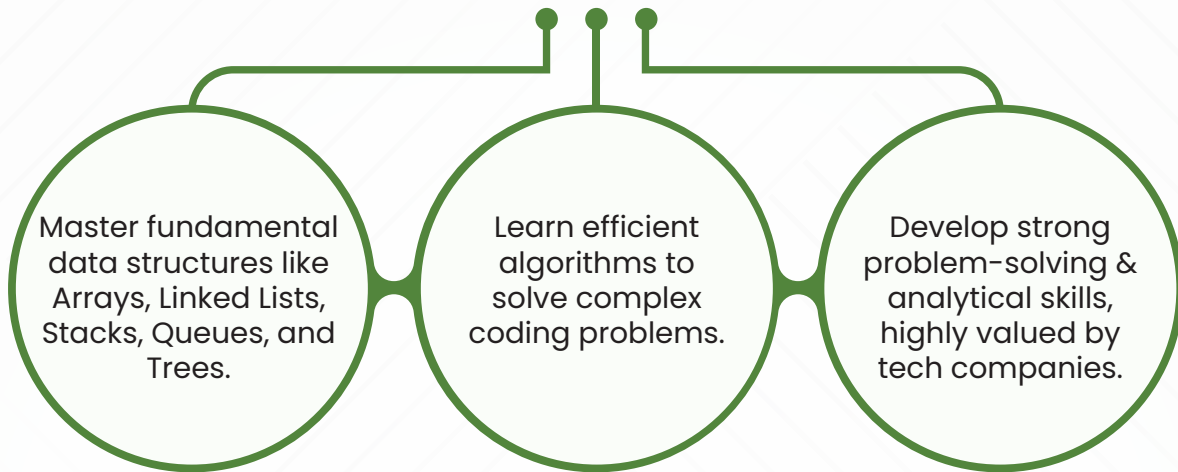

Programming Languages (Python/Java): Gain proficiency in popular server-side programming languages.

APIs & Web Services: Integrate with external data sources and build robust web services.

# DATA STRUCTURES AND ALGORITHMS (DSA)

## PROJECT-BASED LEARNING

Apply your newly acquired knowledge by tackling real-world projects throughout the program. Work on 200+ challenging assignments, receiving personalized feedback from experienced Teaching Assistants to solidify your understanding and build a strong portfolio.

## PW SKILLS: YOUR GATEWAY TO A FULFILLING TECH CAREER

Empower yourself with the in-demand skills and knowledge to launch your dream career in the burgeoning tech industry. Enroll in PW Skills' Full Stack Development with DSA program and unlock your full potential.
