

# documaster campus

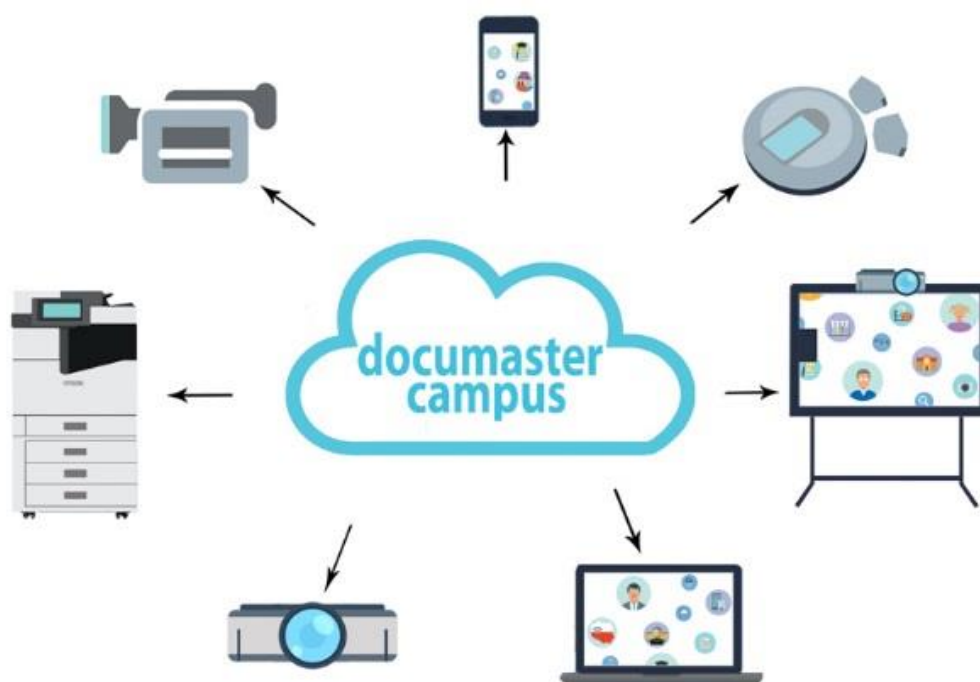

Less work for teachers and students, more fun from learning

Documaster Campus is a cloud IT environment that supports modern-day education. It enables the collection and distribution of educational and scientific material, such as: digital textbooks, digitalized books, e-books, university digital resources, teachers' and students' material, films. The stored material can be shared and accessed by users 24 hours a day from anywhere in the world, all you need is access to the Internet.

Documaster Campus enables communication between users: students, teachers, parents, researchers and entrepreneurs. It allows for cooperation between teachers and scientists locally and across Poland: exchanging lesson plans, sharing experiences, building and managing an information database. The software is integrated with Microsoft Office 365 Edu.

The Documaster Campus repository contains digital scientific resources of the best Polish universities, libraries and scientific institutes (several hundred thousand verified scientific titles) as well as Education Ministry approved e-books and material according to the national curriculum.

The software enables information to be integrated with the most commonly used communication technologies and devices in education: computers, monitors and interactive boards, smartphones, tablets, language labs, digital laboratories, projectors and high-quality equipment that enables cheap printing, scanning, copying and OCR at a self-service print shop on school premises. The special software for these devices guarantees a significant cost saving, with no risk for the school's printing system.

fully integrated with most devices and new technologies

improved quality and more effective teaching with less effort

enables learning by students with illnesses, disabilities and those with special needs

communication and cooperation locally and with other schools

printing of lesson material, OCR and cloud storage

secure access, 24h/7, to the highest quality verified information

Documaster Campus, as well as the devices and solutions integrated with it, are applicable to **financing** from European Union funds.
