# Contents

*Introduction: Tools of the Trade*  
by John Tuomey, Professor of Architectural Design, UCD

1. **Getting Started in Architecture**  
   1.1 Basic Equipment  
   1.2 Building Laboratory  
   1.3 Model-making

2. **Principles of Representation**  
   2.1 Scale  
   2.2 Orthographic Projection  
   2.3 Three-dimensional Projections  
   2.4 Perspective

3. **Drawing Techniques**  
   3.1 Drawing Annotations  
   3.2 Stairs & Ramps  
   3.3 Windows & Doors  
   3.4 Hatching & Lettering  
   3.5 Paper Types & Line Weights

4. **Working Through Drawing**  
   4.1 Drawing to Observe and Record  
   4.2 Representing the Idea  
   4.3 Drawings in Sequence
5. **Surveying**  
5.1 Introduction to Surveying  
5.2 Surveying Techniques

6. **Materials**  
6.1 Introduction to Materials  
6.2 Modular Materials  
6.3 Material Observation

7. **Structure**  
7.1 Foundations  
7.2 Structural Systems  
7.3 Sizing of Structures  
7.4 The Potential of Structure

8. **Principles of Construction**  
Overview  
Definitions  
8.1 Floors  
8.2 Walls  
8.3 Roofs  
8.4 Openings & Junctions
