

LINKING ENVIRONMENT AND FARMING

Join the LEAF Team Technical Assistant

Leading sustainable farming organisation, LEAF (Linking Environment And Farming) has an exciting new opportunity for a graduate as a Technical Assistant based at Stoneleigh Park, Warwickshire.

(Please note that subject to COVID-19 restrictions, candidate interviews may be conducted remotely via video conference. Similarly, the successful applicant may be required to work remotely initially).

LEAF is looking for a dynamic, proficient and analytical agricultural graduate to join a close-knit technical team to provide support for its technical projects and core technical services. In this varied and exciting role, the successful applicant will conduct internal and external project activity and research, provide support to LEAF's members, stakeholders & networks. They will also support the development of LEAF's core technical tools and resources and contribute to events.

Full time - competitive salary - good pension.

Email for applications (please send CV and supporting letter) or for further details to: enquiries@leafuk.org.

Applications close **Friday 8th January** (interviews January 2021).
