LEAF Education builds on the fantastic work of FACE (Farming and Countryside Education) following the successful merger with LEAF. This is achieved by working across the education, farming and food sectors to inspire, engage and mobilise farmers and teachers about the value of farming in a learning context. We provide training and resources for teachers and help farmers navigate the world of education and support them in working with schools.

Our priorities:

- To pursue excellence in education in farming, food and the countryside
- To provide innovative and engaging activities and resources both in the classroom and on the farm
- To raise the confidence of all teachers to deliver powerful learning experiences around food and farming
- To equip, mobilise and increase the capability of farmers to deliver learning experiences.
What we do

Our Ambition
To embed knowledge, understanding and appreciation of farming into everyday life.

Our Mission
To positively influence the next generation about agriculture to support farming, food production and the environment, and enhance the understanding and appreciation of everyone. We will do this by delivering inspiring and stimulating opportunities, through education and wider public engagement.

We work with:

Teachers
Providing training and classroom resources to deliver the curriculum through food and farming experiences

Farmers
Providing farmers with knowledge and building their confidence to deliver inspiring farm visits

Children and young people
Inspiring young people about food, farming and the countryside

www.leafuk.org/education
This is achieved through:

**Teachers**
- Accredited Initial Teacher Training (ITT)
- FaceTime a Farmer
- Continuing Professional Development
- Key stage/subject specific training days

**Farmers**
- Accredited training for farmers (CEVAS/CEVAS PLUS)
- FaceTime a Farmer
- Regional networking opportunities
- LEAF Open Farm School Days

**Young people**
- Engaging activities
  - Chef on the Farm
- Inspiring resources
- Visits to farms and outdoor locations
- Promoting farming as a high-tech business

**Partnerships**
- Regional Education Consultants
- Countryside Classroom
- Access To Farms
- Education Strategy Group
- Public Engagement and Education Committee
“The most important part of the day, for me, was the planning aspects of a farm visit which covered so many curriculum areas. Looking around the farm was very interesting and gave an insight into what could be achieved from a visit, again great hands-on activities.”

- Trainee teacher

“Our Regional Education Consultant provided practical advice and ‘wowed’ everyone with suggestions for activities, from turning the children into a moving, noise-making combine harvester, to worm charming.”

- Farmer

“It really opened my eyes to see how a farm is run as a multi-million pound business, and to think about all the decisions the farmer has to make, not just what crops to grow.”

- A Level Business Studies student

Help us achieve our ambition

Now could not be a more critical time to engage and educate young people, our future generation, with farming, food and the countryside.
