

JOIN OUR TEAM – TECHNICAL OFFICER

Job Title	Technical Officer
Location	Bragborough Hall, Braunston, Daventry NN11 7JG
Department	Innovation and Knowledge Exchange
Responsible to	Director Innovation and Knowledge Exchange

Are you passionate about agriculture, environmental sustainability and creating positive change? Do you enjoy bringing people, projects and ideas together to deliver meaningful impact?

LEAF (Linking Environment and Farming) is looking for a Technical Officer to join our Innovation & Knowledge Exchange team and play a key role in supporting the delivery of projects and programmes that help farmers adopt more sustainable practices.

This is an exciting opportunity for someone with a strong understanding of agriculture, environmental science or sustainable farming who enjoys working across a range of projects, building relationships and turning technical knowledge into practical solutions.

About the role

As Technical Officer, you will support the delivery of LEAF's sustainable farming programmes, working closely with colleagues, farmers, researchers, funders, partners and wider stakeholders.

You will help coordinate projects from planning through to delivery, monitor progress and budgets, contribute to reporting and impact analysis, and support the development of technical resources and events that showcase sustainable farming in action.

This is a varied and collaborative role, requiring someone who can combine technical knowledge with strong organisation, communication and project coordination skills.

What you will be doing:

- Supporting the delivery of technical projects and programmes to agreed objectives, timescales and budgets.
- Coordinating project activities, tracking progress and providing updates to internal and external stakeholders.
- Developing reports, resources and communications that demonstrate the impact of LEAF's work.
- Supporting events, workshops and knowledge exchange activities.
- Building positive relationships with farmers, members, partners and industry stakeholders.
- Contributing to the ongoing development of LEAF's sustainable farming resources and services.

About you

We are looking for someone who is:

- Knowledgeable and motivated to advance sustainable farming and environmental issues.
- Experienced in coordinating projects and managing competing priorities.
- Comfortable working with technical information, data and reporting.
- A confident communicator who can build effective relationships with a wide range of stakeholders.
- Organised, proactive and able to work independently while also being part of a collaborative team.
- Analytical, practical and solutions-focused, with excellent attention to detail.

You will ideally have a degree or equivalent experience in agriculture, environmental science or a related discipline.

Why join LEAF?

At LEAF, you will have the opportunity to contribute to work that is making a real difference to the future of farming. You will be part of a passionate team working with farmers, researchers and industry partners to develop practical solutions that improve sustainability, biodiversity and resilience across agriculture.

This is a fantastic opportunity for someone who wants to use their technical knowledge and project skills to help deliver positive environmental change.

Location: Hybrid working (minimum one day per week at LEAF office, currently Friday)
Hours: Full-time (9-5, five days per week)
Salary: £27,500 per annum

If you are excited about combining your expertise in sustainable agriculture with learning, innovation and stakeholder engagement, we would love to hear from you.

To apply, please submit your CV and a covering letter explaining why you are interested in the role and how your experience aligns with the position to: jobs@leaf.eco

Closing date for applications: Friday, 21st August 2026 at 5pm.

Applicants must have the legal right to work in the UK at the time of application. Unfortunately, we are unable to offer visa sponsorship for this role.

LEAF (is committed to creating an inclusive workplace where everyone feels valued, respected and supported. We welcome applications from all suitably qualified candidates regardless of background. Reasonable adjustments will be made throughout the recruitment process to ensure everyone has an equal opportunity to succeed.
