Become a LEAF Open Farm Sunday Ambassador

LEAF Open Farm Sunday (LOFS) is farming's annual open day.

Managed by LEAF (Linking Environment And Farming), with support from leading food and farming organisations, hundreds of farmers across Britain open their gates to the public to discover the world of farming, food production and all that it encompasses.

2020 events saw LOFS take to the screen with LEAF Online Farm Sunday! It has proved hugely successful and is something we plan to develop with the support from a new team of LOFS Ambassadors.

The new LOFS Ambassador role is for someone who loves taking part in LEAF Open Farm Sunday and talking about it! Primarily it's about helping to build our community of LOFS farmers – sharing ideas, answering questions, helping to promote LOFS and being one of 7 ambassadors for LOFS across Britain.

For this **part time** role (approx. 5 days a year), we are looking for an enthusiastic, approachable and proud ambassador of LEAF Open Farm Sunday; a good communicator, confident using technology, social media and promoting events. A social presence is desired but not essential.

To apply please send in information about your skills and relevant experience, to:
openfarmsunday@leafuk.org

Application deadline: **8th January 2021.**

We will contact potential candidates the following week; successful applicants will be notified by the end of January to begin the role in February 2021.
