

LEAF Education Corporate Membership

LEAF Education works to inspire future generations about farming, food and the countryside. This is achieved by working across the education, farming and food sectors to inspire, engage and mobilise farmers, teachers and young people about the value of farming in a learning context. LEAF Education provides training and resources for teachers, helps farmers navigate the world of education and supports them in working with schools. LEAF Education has national reach thanks to its team of Regional Education Consultants (RECs), covering England and Wales delivering resources, training and facilitating relationships with local schools.

LEAF Education Corporate members can demonstrate commitment to food, farming and countryside education in a variety of ways, including collaborative resource development, joint projects and research, hosting meetings, seminars and events and through colleague training and CPD.

Benefits of membership

- Access to **training**, including 'Speak Out' and CEVAS training
- Contribute to **LEAF Education's core work**, e.g. writing articles for newsletter
- Invitations to the **LEAF Education and Public Engagement Conference**, plus ad-hoc supporter networking sessions
- Access to **educational seminars, workshops and events**
