

## LEAF Education Membership

LEAF Education works to inspire future generations about farming, food and the countryside. This is achieved by working across the education, farming and food sectors to inspire, engage and mobilise farmers, teachers and young people about the value of farming in a learning context. LEAF Education provides training and resources for teachers, helps farmers navigate the world of education and supports them in working with schools. LEAF Education has national reach thanks to its team of Regional Education Consultants (RECs), covering England and Wales delivering resources, training and facilitating relationships with local schools.

## Farmer and Educator Membership

Designed for individual farmers, small independent farms and schools. Whilst supporting LEAF's core work in education, LEAF Farmer and Educator members are introduced to a highly active network of like-minded people. LEAF can help to enhance visits to members' farms and provide support in creating connections with local schools. Equally, members can offer schools their expertise and enthusiasm about food and farming.

## Benefits of membership

- Contribute to **LEAF Education's core work**, e.g. writing articles for newsletter
- Invitations to the **LEAF Education and Public Engagement Conference**, plus ad-hoc supporter networking sessions
- Access to **CPD and personal training**
