Fund Manager comments

Echiquier Entrepreneurs G turned in a positive monthly performance of 2.63% and of 10.75% year-to-date.

The fund continued to grow in May, driven by excellent results publications in the health (VITROLIFE, VIRBAC), technology (ESKER, BOOZT) and capital goods (MANITOU, CAREL INDUSTRIES) sectors. VIRBAC saw its sales increase by 23% organically and benefited from the increase in pet adoptions during the pandemic, which should lead to a sustained acceleration in the growth of the veterinary market. BOOZT, the online fashion specialist in Scandinavia, continued to benefit from the accelerating penetration of e-commerce and is already raising its growth expectations to nearly 30% for 2021. Finally, MANITOU reported an order book of EUR 1.3 billion at the end of March, by far its highest level ever against a backdrop of strong demand from the mining and agricultural sectors. With a balanced portfolio across its three thematic allocations (niche leaders, transformative projects and cyclical companies), a positioning on quality companies and a strong focus on valuation, Echiquier Entrepreneurs should continue to benefit from the dynamism of the small-caps segment in the coming months.
